INTRODUCTION

Since our inception in 2007, Steelscene has been providing superior framing solutions. We have been supplying Perth and greater Western Australia with framing solutions that are unrivalled throughout the industry. At Steelscene, no job is considered too big or small. We supply quality steel wall framing, roof trusses, roof panels and cassette flooring system.

Steelscene is a company that is committed to customer satisfaction and aims to provide prompt, unrivalled service with any project. All Steelscene framing solutions comply with Australian Standards and codes to ensure your framing lasts for years.

Steelscene have been involved in numerous types of projects across the state, including residential and commercial buildings. These projects include over 1000 childcare centres, retirement homes, mining accommodation and large government projects such as WA PPP schools.

We also specialize in cyclonic rated framing in the North West of Western Australia. Our project experience includes servicing mining worker camps in Karratha and multiple residential and commercial structures in Coral Bay.

SCOPE OF WORKS

Steelscene can design, engineer, and supply the light gauge framing components.
